The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/700,342	Applicant(s) JOSE ET AL.	
	Examiner CHUONG T. HO	Art Unit 2476	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in responsive to the amendment filed 05/09/2011.

Election/Restrictions

2. Claims 9-26, 107-108, 109-115 'Specie 1 shown in Figure 5' , drawn to having a plurality of contiguous regions served by respective fixed stations, classified in class 370, subclass 328, and

Claims 35-44, 103-106 'Specie 2 shown in Figure 9' drawn to multiplexing combined with demultiplexing, classified in class 370, subclass 535 is/are generic to the following disclosed patentably distinct species: Claims 9-26, 107-108, 109-115 drawn to Figure 5, and its respective disclosure; Claims 35-44, 103-106 drawn to Figure 9, and its respective disclosure. The species are independent or distinct because Claims 9-26, 107-108, 109-115 drawn to Figure 5, and its respective disclosure; Claims 35-44, 103-106 drawn to Figure 9, and its respective disclosure. In addition, these species are not obvious variants of each other based on the current record.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, or a single grouping of patentably indistinct species, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

There is a search and/or examination burden for the patentably distinct species as set forth above because at least the following reason(s) apply:

Claims 9-26, 107-108, 109-115 'Specie 1 shown in Figure 5' , drawn to having a plurality of contiguous regions served by respective fixed stations, classified in class 370, subclass 328, and Claims 35-44, 103-106 'Specie 2 shown in Figure 9' drawn to multiplexing combined with demultiplexing, classified in class 370, subclass 535.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or a grouping of patentably indistinct species to be examined even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing the elected species or grouping of patentably indistinct species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species or grouping of patentably indistinct species.

Should applicant traverse on the ground that the species, or groupings of patentably indistinct species from which election is required, are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing them

to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141.

3. A telephone call was made to Mr. Daniel P. Burke (Telephone: 516-802-0560) on July 18, 2011 to request an oral election to the above restriction requirement, but did not result in an election being made.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHUONG T. HO whose telephone number is (571)272-3133. The examiner can normally be reached on 8:00 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sheikh Ayaz can be reached on (571) 272-3795. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
